

Sustainable products - Certified commitment

Hygiene products manufacturer

FOR EACH USE OF DESL+® WIPING PAPER, YOU ARE ENGAGED IN REFORESTATION.

FRENCH ORIGIN GUARANTEED (FOG)

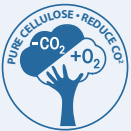

The FOG label provides :

- Clear and transparent communication about the products origin.
- Assurance about maintaining, developing or bringing back production to France in an efficient manner for use in both the internal French market and export markets.

DESL+® TECHNOLOGY

The full optimization of DESL+® technology combined with a strict selection of the best certified fibers result in ultra high wet strength and very long rolls.

PURE PULP PAPER WIPES = RESPONSIBLE AND HYGIENIC

Using certified pure cellulose fibers results in **diminishing greenhouse gases.**

This 100% pure cellulose tissue avoids contamination.

PURE PULP
=
NO CONTAMINATION

PURE PULP
=
ECOLOGY

The biodegradability of tissue wipes is completely natural and can be assimilated by the environment it comes from.

ECOLABEL FOR TISSUE AND SOAP PRODUCTS

Ecolabel is a European certificate awarded by national authorities according to common rules. Attribution criteria are defined at the European level following wide common references. The label is awarded only after checking that environmental and performance criteria have been respected.

CERTIFICATION FSC®

The certification provides customers that request FSC-certified product with the assurance that the products they purchase are sourced from managed forests or from verified recycled sources.
www.fsc.org

OR

CERTIFICATION PEFC®

A product carrying the PEFC label is the assurance of a sustainable approach to forest management. It therefore contributes to the protection of forests.
